Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION (FCC)

FEDERAL COMMUNICATIONS
COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulatory
and Deregulatory Actions; April 1998

AGENCY: Federal Communications
Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: Twice a year, the Commission publishes a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. See 5 U.S.C. 602. The Agenda also provides the CFR citations and legal authorities which govern these proceedings. The Agenda will be published in the **Federal Register** in April and October of each year.

ADDRESSES: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Belford Lawson, Attorney-Adviser, Office of Communications Business Opportunities, FCC, Room 644E, 1919 M Street NW., Washington, DC 20554, (202) 418-7264.

SUPPLEMENTARY INFORMATION:**Unified Agenda of Major and Other
Significant Proceedings**

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

Docket Number—assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry concerning the matter under consideration. The Commission has used docket numbers since January 1, 1978. Docket numbers consist of the last two digits of the calendar year in which the docket was established, plus a sequential number, which begins at 1 with the first docket initiated during a calendar year (e.g., Docket No. 80-1 or Docket No. 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "MM Docket No. 79-164," which indicates that the responsible Bureau is the Mass Media Bureau. A docket number consisting of only five digits (e.g., Docket No. 29622) indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI)—issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM)—issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Further Notice of Proposed Rulemaking (FNPRM)

Memorandum Opinion and Order (MO&O)—issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number—assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking but before the Commission has taken action on the petition.

Report and Order (R&O)—issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

Magalie Roman Salas,
Secretary,
Federal Communications Commission.

Abstract: Section 614(b)(4)(B) of the Communications Act requires that, at the time the Commission prescribes

standards for advanced television, it should "initiate a proceeding to establish any changes in the signal carriage requirements of cable television systems necessary to ensure cable carriage of such broadcast signals of local commercial television stations which have been changed to conform with such modified standards." This NPRM is issued pursuant to the requirements of that Section.

Final Rule Stage

4099. IMPLEMENTATION OF SECTION 551 OF THE TELECOMMUNICATIONS ACT OF 1996, PARENTAL CHOICE IN TELEVISION PROGRAMMING**Priority:** Substantive, Nonsignificant**Legal Authority:** PL 104-104, sec 551(e)**CFR Citation:** Not yet determined**Legal Deadline:** None

Abstract: Under section 551(e) of the Telecommunications Act of 1996 ("the 1996 Act"), the Commission must determine, in consultation with appropriate public interest groups and interested individuals from the private sector, whether: (1) video programming distributors have established, within one year of the 1996 Act's enactment, voluntary rules for rating video programming that contains sexual, violent, or other indecent material about which parents should be

informed before it is displayed to children; (2) such voluntary rules are acceptable to the Commission; and (3) video programming distributors have agreed voluntarily to broadcast signals that contain ratings of such programming. If the Commission determines that the industry proposal fails to satisfy these criteria, the Commission generally must establish its own rating system. Pursuant to the 1996 Act, the National Association Of Broadcasters, the National Cable Television Association, and the Motion Picture Association of America ("the Industry") jointly developed a rating system of voluntary parental guidelines adopted and currently being implemented by television broadcasters and networks, cable networks and systems, and television program producers. Details were submitted to

the Commission on January 17, 1997, within the one year period, with revisions filed on August 1, 1997.

CFR Citation: 47 CFR 51; 47 CFR 53; 47 CFR 64

Legal Deadline: None

Abstract: On January 30, 1998, the FCC released a Further Notice of Proposed Rulemaking (FNPRM) proposing to streamline the safeguards under which the Bell Operating Companies (BOCs) provide information (or enhanced) services, such as voice mail and electric messaging. The FCC seeks comment on tentative conclusions relating to nonstructural safeguards, Comparably Efficient Interconnection plans, and network information disclosure rules, among other things. Finally, the FNPRM seeks to build a record on which to respond to a partial remand of certain orders by the Court of Appeals for the Ninth Circuit.

Unfunded Mandates: Undetermined

Legal Authority: 47 USC 319; 47 USC 307

CFR Citation: 47 CFR 73; 47 CFR 74

Legal Deadline: None

Abstract: This rulemaking was initiated by the FCC as part of its ongoing review of its technical radio broadcast rules. The rulemaking asks for comments as to whether negotiated interference agreements and contingent applications should be allowed in the FM services, and proposes to allow alternative propagation methods to predict service and interference. The rulemaking also proposes specific changes to relax the contour protection rule for certain commercial FM stations, sets a minimum coverage standard for noncommercial educational stations, and proposes to allow correction of coordinates with a single application.
